ME?

.....

I am a UI/UX Designer with a dash of Graphic design, My approach? C.R.E.A.T.E - Creative, redesign, enjoy, accomplish, tackle, evolve. Really, a simple & logical solution towards complex problems that is action oriented, user-centered & aesthetically appealing is what I crave for. Being a frontend developer, I have had a lot of knack for design but to give life to that creativity is another level of joy. I have enjoyed working as a frontend developer and elated to be a UI/UX designer!
